

Enabling Successful Digital Transformation through a powerful AI platform

EMPOWERING LARGE COMPANIES SINCE 2014

1st AI Digital platform for Change Management that helps companies drive a successful and sustainable transformation

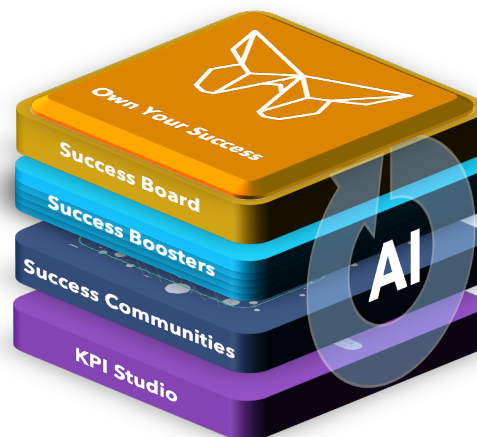

- One single platform for all stages of transformation from onboarding to performance
- Natively integrated within the main business applications (CRM, ERP, e-Procurement, ITSM...)
- Recognised by the Gartner as a Cool Vendor in the Digital Workplace

BOOSTING EMPLOYEE ADOPTION & ENGAGEMENT

We provide an AI powered platform that creates a continuous and engaging environment to drive the company at all levels to reach its goals and achieve success.

- Employees sharing similar goals and KPIs are grouped within Success Communities which are focused on the success of the transformation through the KPIs.
- Several success boosters are constantly nudging every employee for actions for success. Our AI based recommendations are tailored to the exact needs and levels of every person and acts like a personal success coach
- We accompany the change throughout its various phases, from awareness and onboarding, to deployment and adoption, to reinforcement and performance

MAXIMIZING ADOPTION AND ROI

40% of the CAC40 trust us

- 100% of our customers have at least doubled their adoption rate
- x2-3 adoption and performance rates
- ROI x 5 over a 3-year period
- +25% savings on training costs
