### Company Description

Florence is an online marketplace that connects independent nurses and carers directly with care providers to fill their temporary shifts. They offer transparency, accountability and simplicity for care home managers looking to ease the pressure of filling staffing gaps.

Operating across the UK, they match you to the most relevant nurses based on location, required skills and reliability for you to choose from.

### Differentiation

User-friendly comprehensive platform, high quality workers and better service level

### Selected / Targeted customers

### Platform supporting on scheduling
