## Company Description

Security Scorecard (SSC) monitors more than 1 million businesses across the globe and rates them on an easy to understand A-F scale. SSC's cyber insurance offering utilizes the platform's automation and security analytics capabilities to rapidly provide ratings through APIs, to risk managers, compliance officers, or insurance underwriters for any company.

This is a key differentiator in the marketplace.

## Differentiation

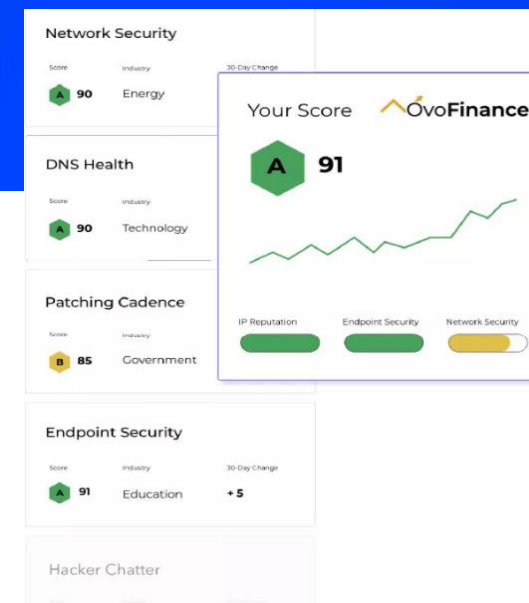

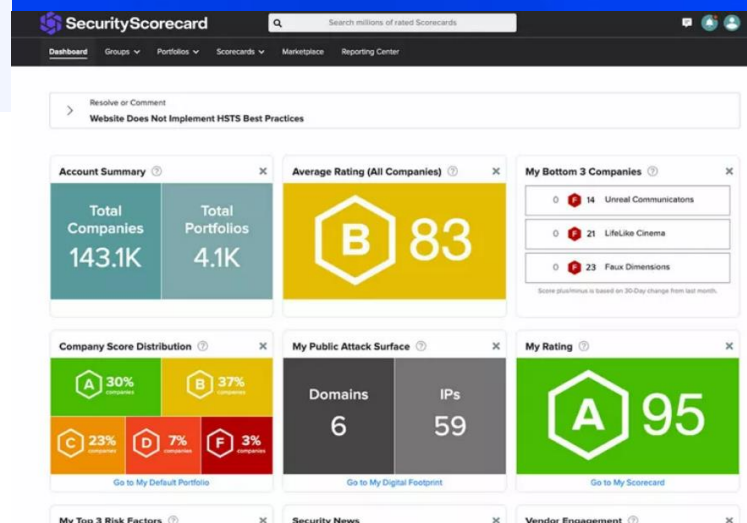

Proprietary data and automated indexing process

## Selected / Targeted customers

Co-creating insurance products

Support in international expansion

Solution deployed at AXA entities

## Cybersecurity Platform Overview
