Company Description

Valera Health is a leading virtual behavioral healthcare practice that offers high quality care to patients through a team-based model that includes licensed therapists, nurse practitioners, case managers, and psychiatrists.

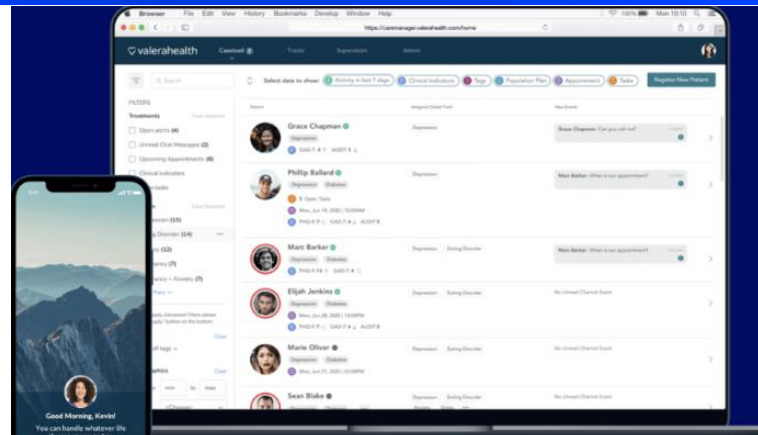

Through partnering closely with healthcare systems and health plans, Valera delivers comprehensive clinical care to their patients and members. Valera is the only mental health provider with a comprehensive quality strategy based on NCQA HEDIS measures with an emphasis on evidence-based treatment plans, which allows the practice to manage high acuity mental health patients.

Selected / Targeted customers

Individuals and Health Plans

Valera Health's Tech platform allows care from anywhere with great results
